wherever you go

Performance. Even when you take it to the limit. Uncompromising safety. And with uvex eyewear you're guaranteed to be a winning team. Because innovative technologies give you the best protection. And the outstanding design gets you noticed from the outset. In your races, training or free time. Look good, see better, feel safe.

uvex

**protecting people
since 1926**

**Professional or recreational.
Competition or fun. As one
of the leading international
manufacturers of protective
products with headquarters
in Fuerth, we at uvex inspire
our customers every day with
groundbreaking technologies
and innovative products.
24/7 – for almost 100 years.
To achieve the best, whether
in leisure, sports or work.
To protect people.**

never not riding.

Simon Gegenheimer is an exceptional athlete. He's been German champion in MTB XCE four times since 2012. And internationally too – as a successful part of the German MOUNTAINBIKE RACINGTEAM. He won the MTB world championships as the first Eliminator XCE in 2021 and was vice world champion in 2016, 2017 and 2020. No wonder. He wears uvex helmets and uvex eyewear.

#proudtoprotect

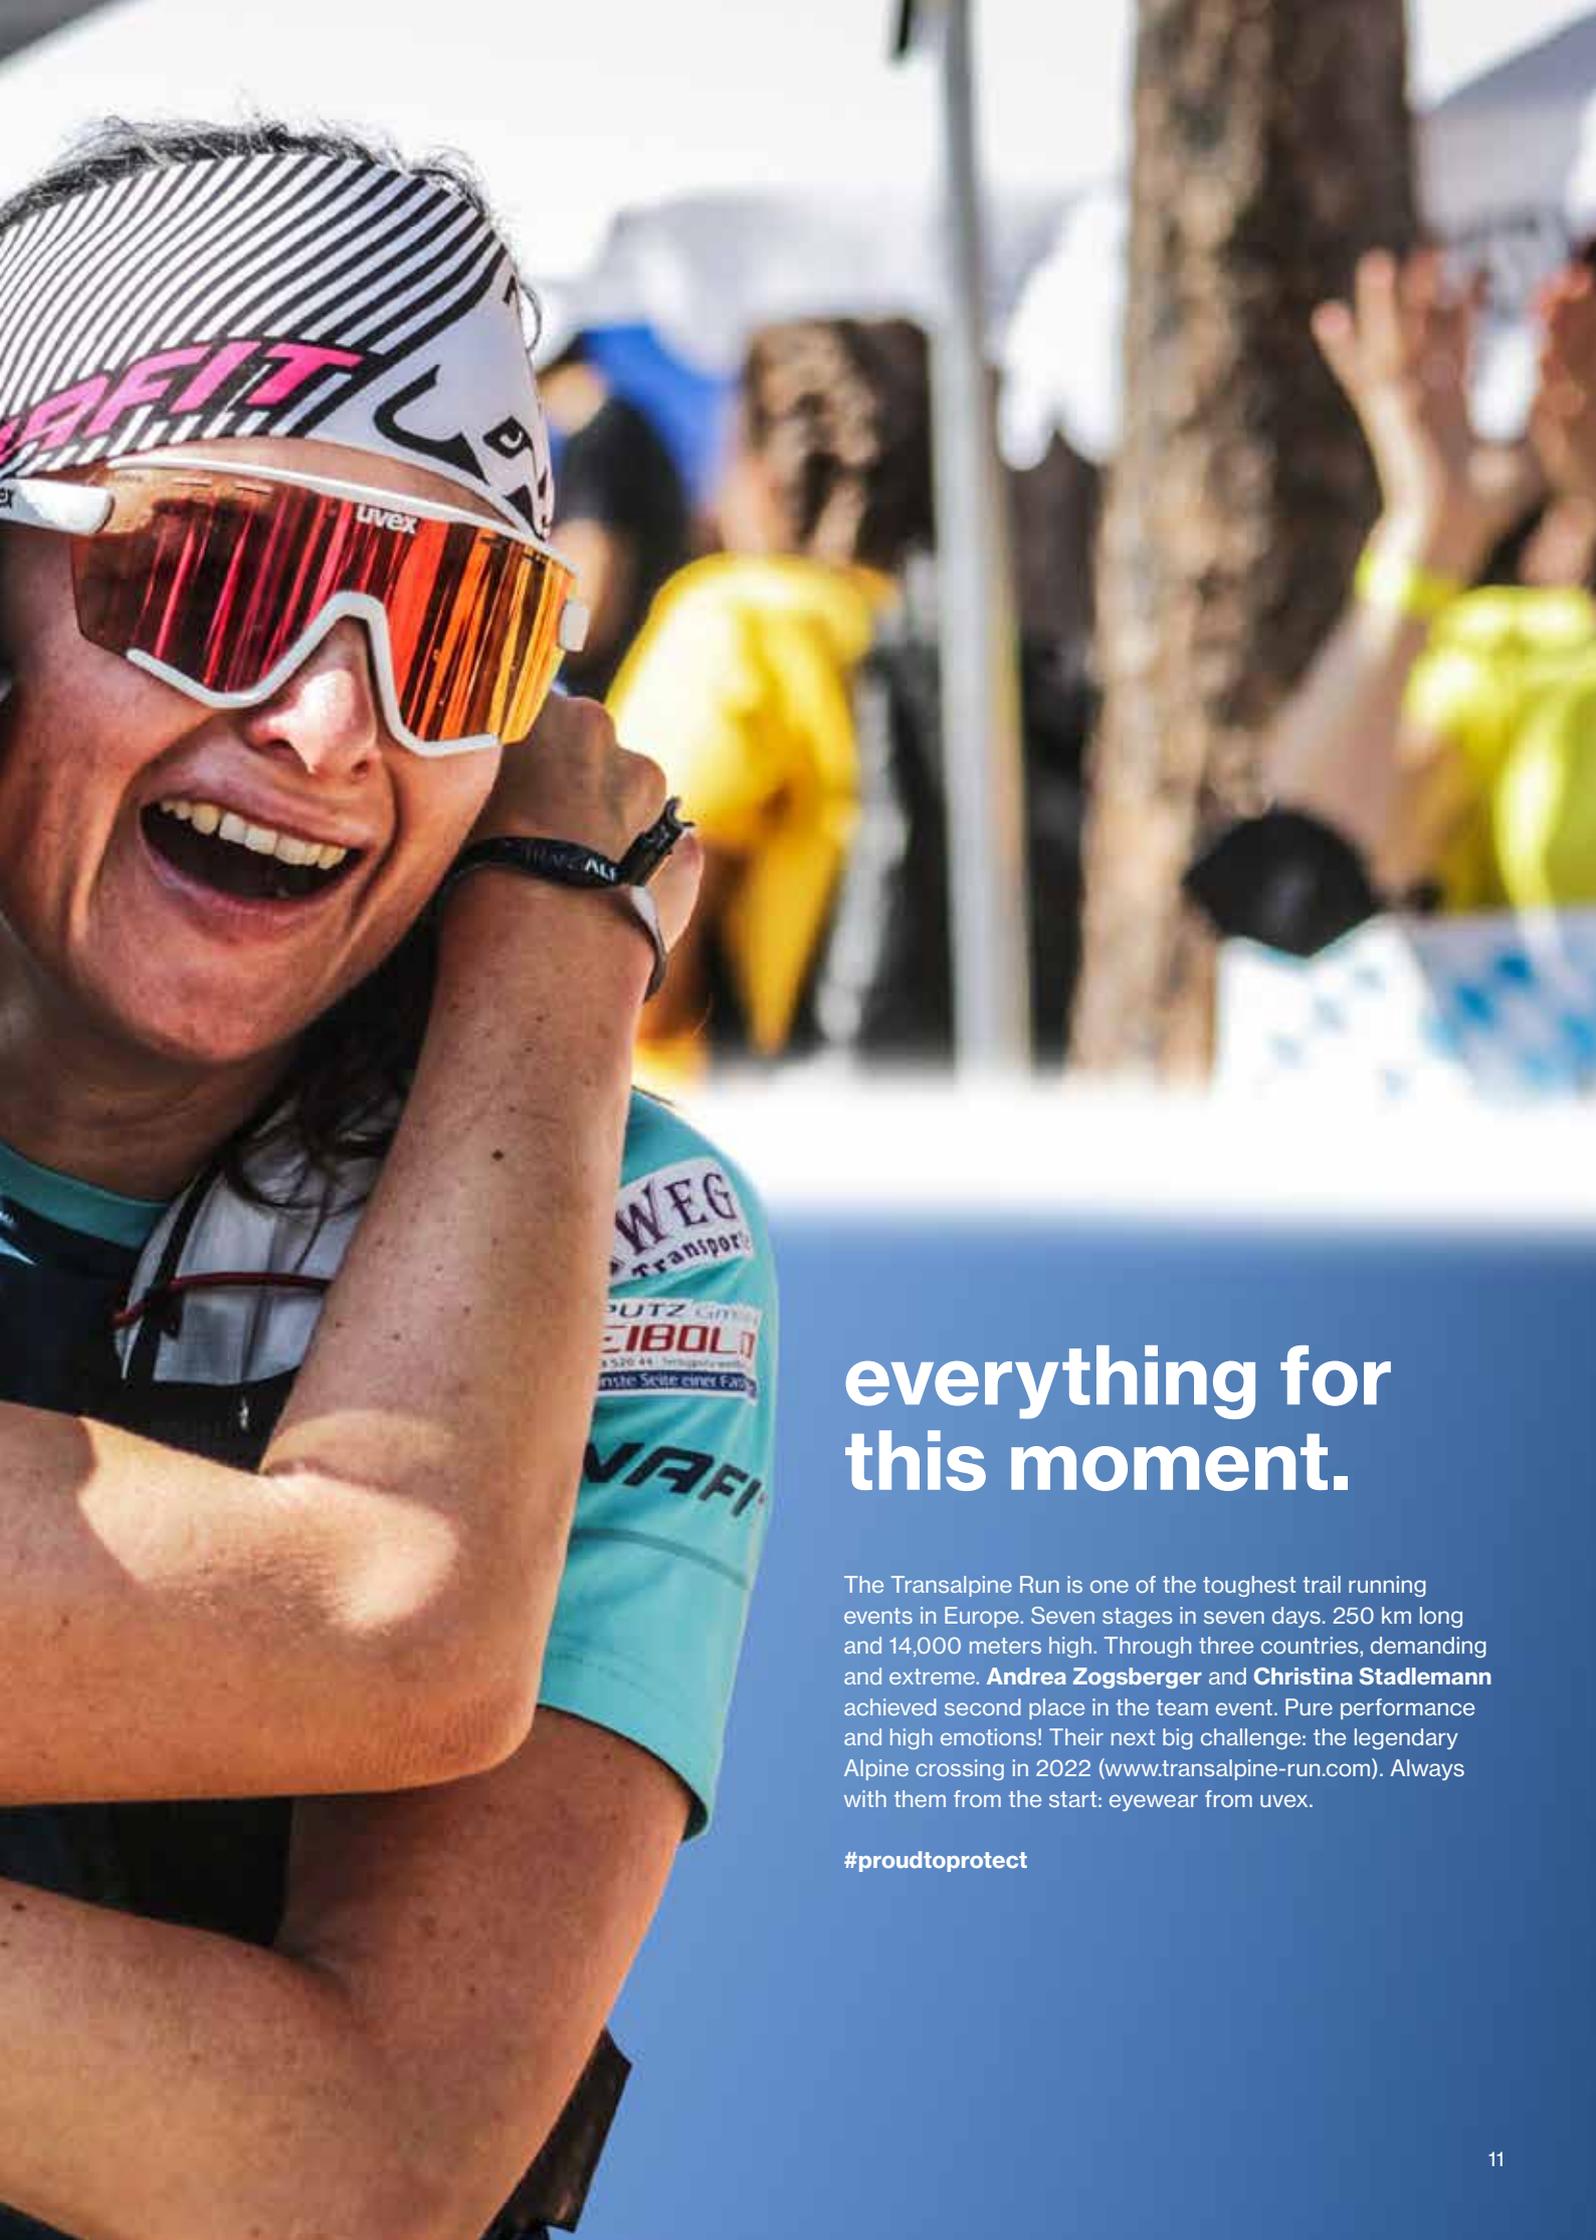

swim. bike. run. repeat.

He's won the Ironman six times. He's the fastest Swedish triathlete of all time. And he's nowhere near his goal yet. **Patrik Nilsson** has been breaking records since 2014, always hunting for the ultimate challenge. Never without the best protection. For him, there's no alternative to uvex eyewear. Keeps his sights on the challenge, fits perfectly and offers uncompromising protection when it really counts.

#proudtoprotect

everything for this moment.

The Transalpine Run is one of the toughest trail running events in Europe. Seven stages in seven days. 250 km long and 14,000 meters high. Through three countries, demanding and extreme. **Andrea Zogsberger** and **Christina Stadlemann** achieved second place in the team event. Pure performance and high emotions! Their next big challenge: the legendary Alpine crossing in 2022 (www.transalpine-run.com). Always with them from the start: eyewear from uvex.

#proudtoprotect

lens tech

Everything in view: on trails, in races, for outdoor and leisure.

Lens technology is the uvex brand's DNA. The result of in-house engineering and our own production facilities. High tech, high quality, perfect vision guaranteed.

uvex colorvision®: wow effect included

- Ultimate contrast enhancement
- Maximized color perception
- 100% UVA, UVB, UVC protection up to 400 nm

uvex ocean series

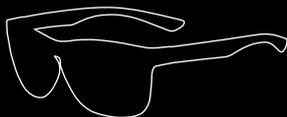

Recycled nets. No crude oil. Protects resources.

We make our uvex ocean series without using any crude oil-based materials. Instead, we recycle nylon fishing nets. That reduces CO₂ emissions by up to 55%. Just one of our contributions to the environment.

Frame: **100% recycled fishing nets**
uvex polavision® lenses: **100% biodegradable**
Logos and lettering: **100% water-based lacquers**
Eyewear bag: **100% Eucalyptus Tencel®**
Cotton goggle strap: **Öko-Tex 100 Standard**
Packaging: **100% recycled paper**

- 1 Collecting abandoned ghost nets from the seas
- 2 Cleaning and shredding
- 3 Processing the raw material into pellets
- 4 Producing frames that are made from 100% recycled material

uvex lvl up BLUE CV

Brighter colors.
Sharper contrasts.
No digital eye strain.

People who often look at a computer, smartphone, tablet or TV know the typical symptoms of optic nerve fatigue. We find it harder to see contrasts, colors look faded, we're less responsive and our efficiency drops. Special screen and gaming glasses filter the devices' blue light and protect against digital eye strain.

#nomorestress

uvex lvl up BLUE CV

Next level.

For when you need to move quick as lightning. And have great reflexes. Gives you razor-sharp contrast and responsive eyes. Our e-sports glasses were developed by gamers for gamers. And they're naturally headset-compatible.

Features

- uvex colorvision® technology
- Soft nose pads
- Soft earpieces
- Flexible earpieces

uvex colorvision®

Automatic self-tinting

No coating

uvex supravision® coating

uvex supravision®

The uvex supravision® coating ensures fog-free vision without affecting the optical quality of the lens. It remains fog-free for twice as long as specified by the standard.

- 200% more anti-fog (vs. standard)
- Break-resistant for maximum protection
- 100% UVA, UVB, UVC protection up to 400 nm

uvex polavision®

Reliable protection against reflections and glare: the lenses of the uvex polavision® series absorb diffused light and reliably protect the eyes from overexertion.

- Polarizing lenses against disturbing reflections
- Reduce stray light and glare
- For a comfortable viewing experience

uvex colorvision® variomatic®

uvex variomatic® meets uvex colorvision® technology: lens tinting and contrast enhancement – in a single, innovative uvex lens. Made for sports activities in any weather and any environment.

Decentered lens technology

Distortions and curvatures in the field of view can quickly lead to irritation. uvex therefore uses grade 1 decentered lenses, which allow a distortion-free view.

Direct lens ventilation

The uvex climate competence ensures permanent, draft-free ventilation. This keeps the field of view fog-free twice as long as conventional standards demand.

Easy to clean

The special coating on the lens allows moisture or fingerprints to be easily removed.

VPX

uvex sunglasses with variomatic polavision extended technology (VPX) – featuring automatic, stepless self-tinting in all light conditions, as well as secure protection against glare and annoying reflections.

Interchangeable lenses

Interchangeable lenses guarantee uncomplicated handling and perfect visibility in all weather conditions.

Robust and scratch-proof

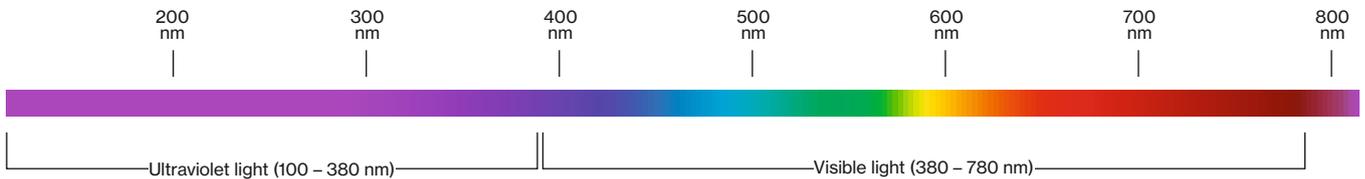

Made of extremely durable polycarbonate, the lenses withstand temperatures down to -40°C without compromising mechanical strength. A special coating to protect against damage according to standard EN ISO 12312-1 makes the lenses scratch-resistant without impairing the view.

Soft nose pads and earpiece ends

A pair of glasses fits perfectly when you cannot feel them. Soft nose pads and soft earpiece ends ensure pressure-free wearing comfort. The soft earpieces are cold-formable on a variety of models. They make it easy to get a perfect grip.

UV protection

Ultraviolet absorbers integrated directly into the raw material filter 100% of harmful UVA, UVB, and UVC radiation up to 400 nm.

100% UV protection up to 400 nm
Our UV absorber offers 100% protection against damaging UV rays up to 400 nm.
