made2perform

uvex is performance.

made2perform is our pledge to design and manufacture products that deliver exceptional performance without compromising on safety, comfort, quality or sustainability. Products that perform – from the workplace through to the world of sports and leisure.

uvex stands for passion, motivation, and excellence. “made2perform” is a motivating force for our customers, athletes, uvex employees, and all those who aspire to the winner's podium.

tech summary

Tested to standards

Anyone riding with uvex bike helmets rides on the safe side. Because every one of our bike helmets undergoes tough tests in the uvex testing center.

Additionally GS-tested

The voluntary test mark "GS" stands for "Geprüfte Sicherheit" ("tested safety").
Find details about test criteria: www.tuv.com

European standard for cycling helmet, downhill skiing and snowboarding goggles

EN 1078:2012+A1 2012

US Norm ASTM F1952-15

NTA 8776-certified

NTA 8776

Shell materials

PC

inmould // double inmould // multi-inmould

Safety thanks to the strongly bonded PC shell. Double inmould for extra protection along the lower edge.

ABS

hardshell

Proven technology has a hard shell for highly effective protection.

EPS

hardshell // inmould

The protective material comprises microscopically small air chambers that act as shock absorbers for the impact created by a crash.

Shell constructions

Hardshell

The helmet has a molded outer shell and EPS inner shell for the most efficient safety combination: impact resistant on the outside, shock-absorbing on

the inside. This complex construction allows perfectly placed air vents and channels to be built in, for exceptional wearing comfort.

Inmould

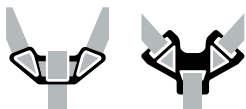

The protective EPS is injected directly into the polycarbonate shell. This ensures a lightweight helmet construction with the highest impact resistance and perfect bonding between the EPS inner layer and the PC outer layer.

Double inmould // multi-inmould

The proven inmould construction is fitted with a second or several PC shell(s). It gives extra protection to the outer edge from damage.

Fit

FAS

Fast Adapting System straps can be easily and continuously tailored to fit your precise head shape.

Monomatic

The uvex monomatic comfort fastener can be opened and closed with just one hand.

Shell sizes

Perfect fit = head size and head shape. The uvex range has the perfect shell size for every head, whether large, small, round or angular, from 45 cm to 65 cm.
